## WHY VOTEHEALTH 2020

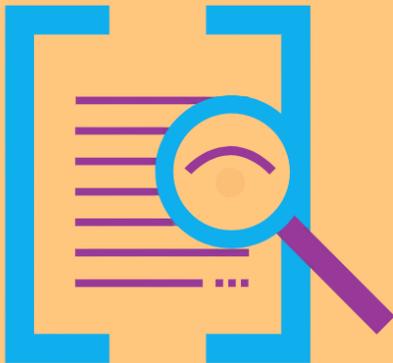

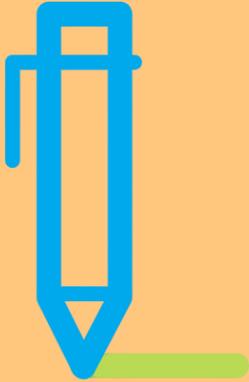

Thank you for being part of the non-partisan VoteHealth 2020 movement to help our peers, patients, and communities register and vote safely this November. Voting has always been an important indicator of a healthy democracy and as the COVID-19 pandemic continues to upend so many aspects of our lives, we have an opportunity to help ensure that all individuals are able to exercise their right to vote in as safe a manner as possible.

**Here are 3  
actions you  
can take in the  
days ahead**

**01**

Ensure you, your family, friends, and neighbors are registered and have a **safe voting plan**.

**02**

Remind people about the importance of **registering and requesting an absentee ballot early** via social media and within your networks.

**03**

**Encourage your organization and others** to ensure that all eligible staff and those they serve (patients, customers, etc.) are registered and have a safe voting plan.

VOTEHEALTH

01

Our experiences indicate that personal outreach is incredibly effective. You might be surprised how many people haven't gotten around to registering or requesting an absentee ballot yet!

Consider texting or emailing them [VoteHealth2020.com](https://VoteHealth2020.com) where they can **check** their registration status, **register**, and/or **request** an absentee ballot in minutes.

Check out **Healthy Voting** which has state specific guidance to help you create a safe voting plan. These are just a few suggestions of how you can help to ensure all Americans can safely vote, but don't hesitate to get creative!

VoteHealth 2020 was born out of a group of people who coalesced their ideas, passions, and talents around a common goal - to help as many people as possible register and vote safely this November. We'd love to share, learn, and celebrate with you so please don't hesitate to get in touch with us!
